General Transportation Announcements

- UMass Boston now offers free e-bike and e-scooter charging at the West Garage Secured Shelter with 13 Saris Power Posts; simply [register your bike through Project 529](#) for Beaconcard access. [Learn more about bike parking and facilities.](#)

About Biking at UMass Boston

UMass Boston supports cycling as a sustainable transportation option by offering [parking](#), free registration, [end-of-trip amenities](#), and access to the [Bluebikes](#) bikeshare program. Whether you bring your own bike or use bikeshare, we provide resources to ensure safe, efficient, and convenient travel on campus.

How to Park & Register Your Bike

Where to Park Your Bike (Free & Secure!)

UMass Boston offers over 740 free bike parking spaces campus-wide, including:

- **West Garage Secured Shelter:** 125-space indoor, secure bike storage
- **Maintenance Station:** Basic maintenance tools are available inside the West Garage
- **Charging Stations (West Garage Bike Shelter Only):** 13 Saris Power Posts with 26 ports for e-bikes and e-scooters (free to use with certified batteries). Lock your rear wheel and frame to the ring with a U-lock, then plug in your personal charger. Move your device to another rack once fully charged

To use the West Garage secure shelter, you must first [register your bicycle through Project 529](#). Once your registration is confirmed, you'll receive access to the shelter using your Beaconcard.

Full registration details and instructions are available in [Register Your Bike, E-Bike, Scooter, or E-Scooter](#).

Register Your Bike, E-Bike, Scooter, or E-Scooter

All bikes, e-bikes, scooters, and e-scooters, can be [registered through Project 529](#). Registration is free, quick, and helps protect your device. Registration is required to access the secure shelter in the West Garage, and strongly encouraged for all riders to support theft prevention and recovery.

Why Register?

- Registration acts as a deterrent against theft when used with the optional 529 Shield.
- Registration helps staff and law enforcement return lost or stolen devices.
- Registration is required for access to the secured, indoor bike parking area in the West Garage.

E-Bike & E-Scooter Requirements

Devices with electric motors must have batteries certified by UL, TUV, or another Nationally Recognized Testing Laboratory (NRTL). Devices without certified batteries are not eligible for secure shelter access. If certification is missing, Transportation Services will follow up to request additional details.

How to Register

- Use the [UMass Boston 529 Registration Page](#) or [download the Project 529 app](#).
- Sign up with your UMass Boston email address.
- Enter your device's make, model, color, and serial number (usually near the crank or rear wheel).
- Select "UMass Boston" as your organization.
- Submit your registration.

What Happens Next

- Transportation Services will review your registration.
- You'll receive an email when your Beaconcard has been activated for indoor, secure shelter access in the West Garage.
- After access is confirmed, you may request a free 529 Shield. If requested, we'll assign it to your registration and notify you when it's ready for pickup in our office.

What Is a 529 Shield?

A tamper-resistant, weatherproof sticker that links your physical device to your 529 Garage registration. It supports theft deterrence and helps with recovery.

The 529 Shield is optional but strongly recommended.

Riding Responsibly on Campus

To ensure a safe and enjoyable environment for everyone, UMass Boston has established clear guidelines for riding and parking on campus. Following these helps keep pathways clear and ensures access for all.

Key Guidelines:

- Ride Safely: Always wear a helmet, yield to pedestrians, and follow traffic rules.
- Park Smart: Use designated racks or secure shelters. Avoid parking on sidewalks or blocking pathways to prevent your bike from being removed.
- Charge at Designated Stations: E-bike and e-scooter charging is currently available at the West Garage bike shelter only. Devices must be registered through Project 529 and have NRTL-certified batteries.
- Register Your Ride: Access secure parking by registering with Project 529.
